SUMMARY

Software Engineer with 2+ years of experience in full-stack development, AI integrations, and backend systems. Skilled in React, Node, Spring Boot, and FastAPI with strong CS fundamentals.

EDUCATION

2021 - 2025	Bachelor's Degree at SRM University-A.P.	(GPA: 9.18/10.00)
2021	Class 12th at Sri Chaitanya Junior College	(Percentage: 98.50/100.00)
2019	Class 10th at St. Joseph's High School	(GPA: 10.00/10.00)

SKILLS

Coursework	Data Structures and Algorithms, Object Oriented Programming, Operating Systems
Web Development	HTML, CSS, JavaScript, ReactJS, Node js, Express js, Spring Boot, FastAPI
Databases	MySQL, PostgreSQL, MongoDB
Languages	C++, Python, Java
Tools	LangGraph, CrewAI, VS Code, IntelliJ IDEA, Postman, Git, GitHub, Figma, Bitbucket
Soft Skills	Communication, Leadership, Teamwork, Problem-Solving

WORK EXPERIENCE

SOFTWARE ENGINEER INTERN, PINELABS Sep 2024 - Present

- Designed and developed an end-to-end **KYC system**, reducing Operations team workload by **93%** through automation of promoter verification using REST and third-party API integrations with **Spring Boot**.
- Led end-to-end development of **Task Management App** using **FastAPI** for task assignment, geo-fencing check-ins, attendance tracking, and reporting, reducing manual coordination efforts by **90%**.
- Built a **multilingual AI assistant** in 7+ regional languages with **LangGraph** and Agentic Framework, **increasing sales revenue** by reducing merchant intervention and enhancing customer engagement during in-store purchases.
- Optimized **POS backend** workflows, including **charge slip generation** and **IMEI/SKU scanner**, resulting in improved transaction processing efficiency and a **40%** increase in scanner speed and prompt handling.

ASSOCIATE PROGRAMMER ANALYST INTERN, MOODY'S Jun 2024 - Aug 2024

- Familiar with C# and Unit Testing, effectively utilizing NUnit and Moq frameworks to significantly improve line coverage **from 24% to 98%** and gained experience in agile methodologies.

UI/UX DESIGNER INTERN, AGUMENTIK GROUP OF COMPANIES Jun 2023 - Aug 2023

- Conducted usability testing with **200+ users** and collaborated with cross-functional teams to design a service booking app UI, reducing support inquiries by **50%** through optimized wireframes and prototypes.

PROJECTS

WIKIWISE - MongoDB, Express, React, Nodejs [Github](#)

- Recognized the need for a platform offering quick, accurate guides to reduce time spent across scattered sources.
- Building "WikiWise", a Gen AI-powered platform that delivers user questions, answers, and comprehensive articles, enhancing knowledge sharing and access to essential information.

BLOCKCHAIN BASED CROWDFUNDING PLATFORM - Ethereum, Solidity, MetaMask, React [Github](#)

- Identified the need for a transparent crowdfunding system ensuring accountability and prevent fraud.
- Developed a Web3 crowdfunding platform that enabled detailed campaign creation, real-time tracking for transparency, and trust, while ensuring optimized performance.

VIRTUAL ASSISTANT - Python [Github](#)

- Automated various tasks by crafting a voice-based AI assistant with Python, integrated with the web to deliver real-time responses with efficiency and accuracy.
